

MASCOT TRUCK PARTS LTD.

For over eleven years, Mascot Truck Parts in Edmonton, Alberta has had in service a B & F model 225 parts washer. This is an efficient, smooth and quiet running piece of equipment in a loud environment.

Both at point of sale and after sales service has been excellent and has enabled us to continue our production with minimal down time.

Initial cost and after sales service were both determining factors in our decision to add a second model 225 to our production facility.
